Allowable Subject Matter

Applicant has cancelled all but those claims which had previously been indicated as allowable.

There are only two references that even teach the combination of a hydroxyl group-functionalized polysiloxane and hexamethoxymethylmelamine. The first of these is Kawazu et al., EP 803 555. This reference teaches a composition containing, in addition to these materials, hydroxyl group-functionalized polyester and vinyl resin. Ketone solvents are contemplated though not the specific one disclosed in the claims. There is, however, no mention of toluenesulfonic, or toluic, acid nor could the Examiner ascertain why one of ordinary skill would have been motivated to add this particular compound.

Japanese document no. 2-219881 A teaches a polysiloxane-polyester copolymer with a specified hydroxyl number, hexamethoxymethylmelamine, and a sulfonic acid of which toluenesulfonic acid is exemplary. Curiously, however, a verbal translation provided to the Examiner indicate dthat no solvent/diluent was mentioned. Though it may have been obvious to add a solvent to the coating composition to lessen its viscosity, thereby increasing spreadability, the Examiner could not conceive of why it would have been obvious to select methyl amyl ketone from all the known commercially available solvents.

The reference cited during this prosecution represent the most germane prior art known. Inasmuch as they fail to even render obvious the instant invention, claims 15-19 are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc S. Zimmer whose telephone number is 571-272-1096. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
